Source Water Spill Reported in Bowman County

BISMARCK, N.D. – A 4,000-barrel source water spill occurred Tuesday, Aug. 9, at a well site owned by Denbury Onshore. The incident occurred in Bowman County approximately nine miles southwest of Rhame and is a result of a pipeline leak.

Source water is higher in dissolved solids and minerals than fresh water. The released fluids entered a dry creek bed.

The NDDoH is responding at the site and will work with the company on remediation plans.

For more information, contact Bill Suess of the North Dakota Department of Health, at 701.328.5216.
