Clean Water State Revolving Fund Awards Three Loans

BISMARCK, N.D. – The Clean Water State Revolving Fund (CWSRF) Program awarded loans to three cities in North Dakota between February and May 2017.

- Cavalier - \$906,000 to extend sewer services to the Pines Subdivision. This project qualifies for loan forgiveness of \$271,800; the net amount of the loan will be \$634,200 when fully funded.
- Jamestown - \$4,800,000 to develop an additional sanitary landfill cell.
- Larimore - \$9,360,000 to replace 6.2 miles of sewer lines and construct storm-water control projects to reduce flooding and infiltration into the sanitary sewer system. This project qualifies for \$380,700 of loan forgiveness; the net amount of the loan will be \$8,979,200 when fully funded.

The U.S. Environmental Protection Agency provides part of the funding for the CWSRF Program, which offers below-market interest rate loans to political subdivisions for financing projects authorized under the Clean Water Act. CWSRF programs operate nationwide to provide the funding necessary to maintain and improve the infrastructure that protects our valuable water resources.

For more information, contact David Bergsagel (CWSRF), North Dakota Department of Health, at 701.328.5211.
