Produced Water Spill in Stark County

BISMARCK, N.D. – The North Dakota Department of Health (NDDoH) has been notified of a produced water spill resulting from a tank overflow in Stark County. The tank is located on an oil pad owned by Scout Energy Management, LLC.

The incident occurred about 2 miles west of Dickinson on February 3, and it was reported the next day.

Initial estimates indicate approximately 450 barrels of produced water were released and impacted agricultural land. Personnel from the NDDoH have inspected the site and will continue to monitor the investigation and remediation.

For more information, contact Bill Suess, North Dakota Department of Health, at 701.328.5216.
